

May 2012

To the Class of '62,

My name is Kirsten Taylor and I was this year's recipient of the \$6,200 scholarship. I am very grateful to all of you who made this scholarship possible and I am certain that it would be a lot more challenging for me to afford my college education without this scholarship. My mother is a single parent, and in the process of obtaining her Masters' degree in English Literacy. I have learned from her that a strong work ethic will always serve you well and allow you to be successful in anything you attempt. It is because of her example that I have always given my best effort and was fortunate enough to receive several scholarships from the local community. I plan to earn my Bachelor of Arts degree in psychology, serve in the Peace Corps for 18 months, and go on to obtain my PhD in Marriage and Family Counseling in order to become a Marriage and Family Counselor either within a church or my own practice. It is because of your help that this dream is becoming more and more realistic. Thank you for your support.

Kirsten Taylor
